

**PURPOSE:** To communicate that rating plate labels have been updated on SENSEI® RX/RXP and CX/CXP tankless water heater models to accurately reflect the maximum current draw.

#### PRODUCT INFORMATION

- **Applicable Products:** SENSEI Condensing Tankless Water Heaters (RX/RXP and CX/CXP Models)
- **Applicable Models:**
  - **SENSEI RX/RXP Series:** RX199i, RXP199i, RX180i, RX160i, RXP160i and RX130i
  - **SENSEI CX/CXP Series:** CX199i, CXP199i, CX160i and CXP160i

#### OVERVIEW

Rating plates were updated on August 7th, 2024 to reflect the new maximum current draw of 6 AMPS, replacing the previous 10 AMPS rating.

The **first serial number** that uses the new “6A” (6 AMPS) rating plate is **SH.BA-131176**.

Rating plates are located on the left-hand side of the tankless water heater. The following example reflects the update to the rating plate.
