

PURPOSE: To announce a new isolation valve design for Rinnai Tankless Water Heaters. The new isolation valve includes an integrated gasket inside the swivel nut, eliminating the need for a separate union fitting and gasket. Below are illustrations of previous and new isolation valves for condensing and non-condensing installations. The new isolation valves are compatible with all tankless water heaters. They will be implemented as a running change and will keep the same part numbers.

PREVIOUS CONDENSING INSTALLATION

NEW CONDENSING INSTALLATION (Valve Kit Part Number: 107000284)

PREVIOUS NON-CONDENSING INSTALLATION

NEW NON-CONDENSING INSTALLATION (Valve Kit Part Number: MIVK-T-LW)
