| 21"   | 223182 | 21"              | 223184 |   |        |                  |        |

**1** The elbow included with the termination kit has been updated to provide additional clearance between the wall and the socket side of the elbow. This additional clearance will improve accessibility during installation.

**2** Termination and wall plate color have been updated from black to grey.

**IMPORTANT:** The carton box label will include "Revision B" for all updated terminations and termination kits. Example: 11.5" Universal Non-Condensing Kit (short) Revision B
