

**PURPOSE:** To announce a new venting configuration for the I-Series Condensing Gas Boiler.

### PRODUCT INFORMATION

- Applicable Product: Rinnai I-Series Condensing Gas Boiler
- Applicable Models:

Combi Models:	i060C, i090C, i120C
Solo Models:	i060S, i090S, i120S, i150S

### DETAILS

The I-Series Boiler has been approved for a new venting configuration that allows the intake and exhaust terminations on different pressure planes. See Figures 1 and 2 for sample configurations.

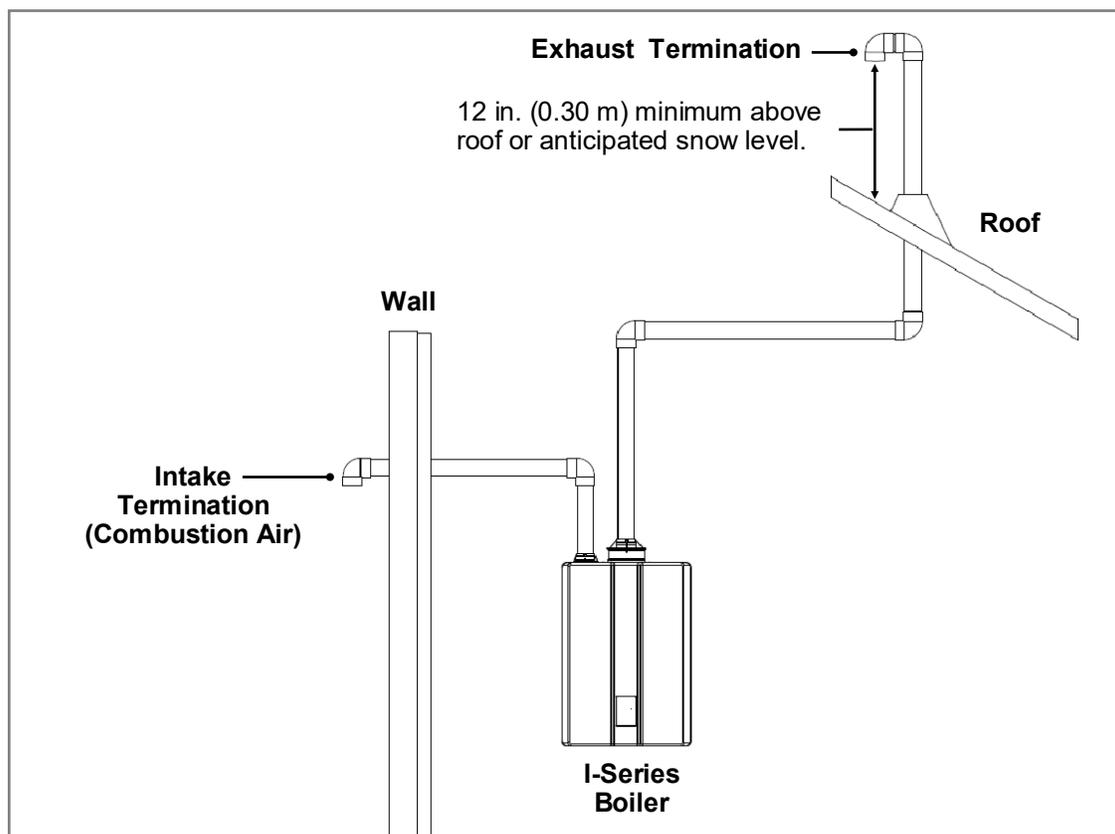

Fig 1. New I-Series Boiler Venting Configuration (Example 1)

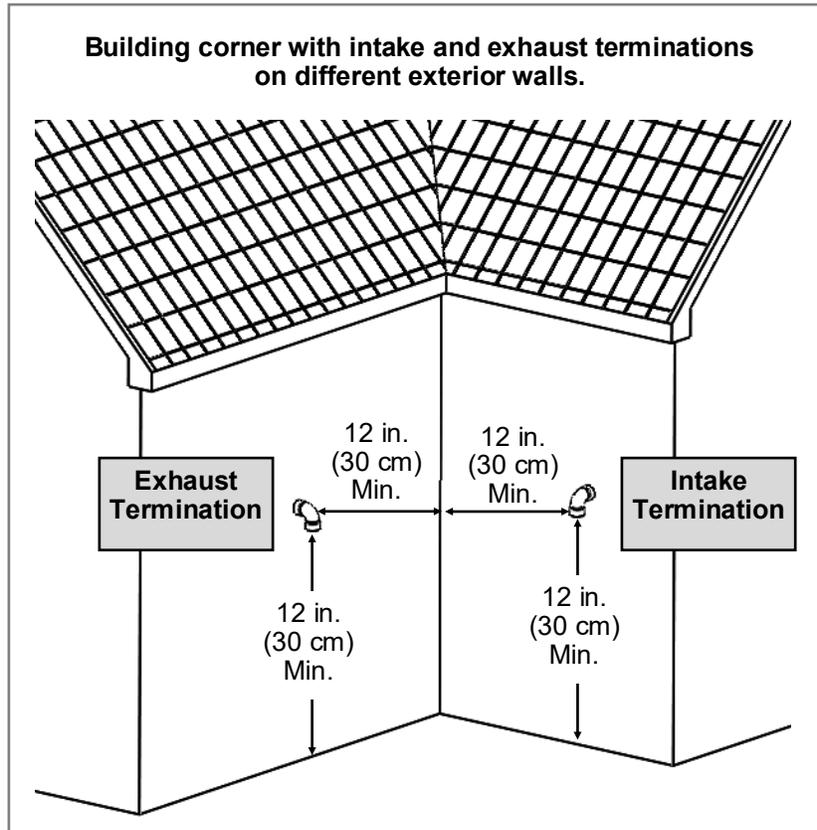

Fig 2. New I-Series Boiler Venting Configuration (Example 2)

**➔ IMPORTANT**

All other venting options, such as termination clearances and maximum equivalent vent lengths, remain the same and are located in the “I-Series Boiler Installation and Operation Manual.”
